operational team

Reliable partnerships

Block train transportation with
state railways

Own corridor
solutions

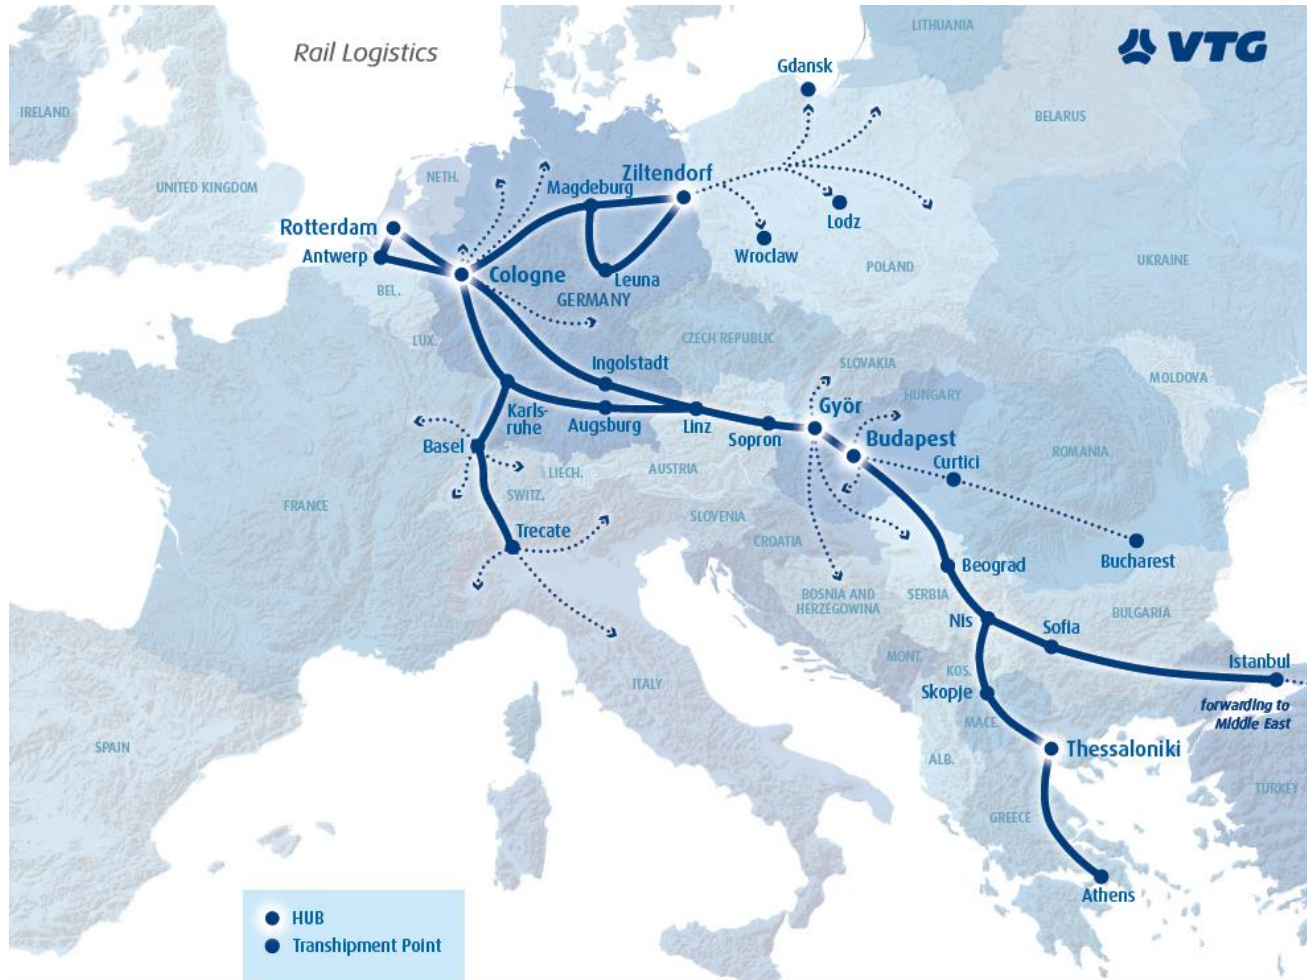

Multi-modal
transports

Oversize transport
Projects

Retrack Network - Overview

Connecting Poland and CIS

Challenges of Cross Boarding Transports

- **Increasing competition through alternative transport modes (short sea, truck, container vs. conventional rail transports)**
 - **Changes in requirements for transports, in particular for railway transports**
 - **Flexibility (esp. train set up)**
 - **Railway owned vs. private wagons (RIV)**
 - **Standardization of legal and operational requirements**
 - **Time Schedule**
