  • Security Related Facilitations
• Global Overview and Final Remarks
Supply Chain Security

Supply chain security concept includes;

- programs
- procedures
- technologies

to address to any threats to supply chain and its economic, social and human consequences.

Association of Customs and Trade Experts
AEO is a status attributed to the economic operators ensuring:

- Appropriate record of compliance with customs requirements
- Satisfactory system for managing commercial records
- Good financial solvency and security standards.

In return, AEOs enjoy some facilitated and privileged treatment during their customs operations.
AEO - Customs Risk Management – Supply Chain Security
AEO Benefits in Turkey

- Local Clearance in Export
