

Digital Transport and Logistics Forum

FIATA HQ session, Zurich, 18 March 2016

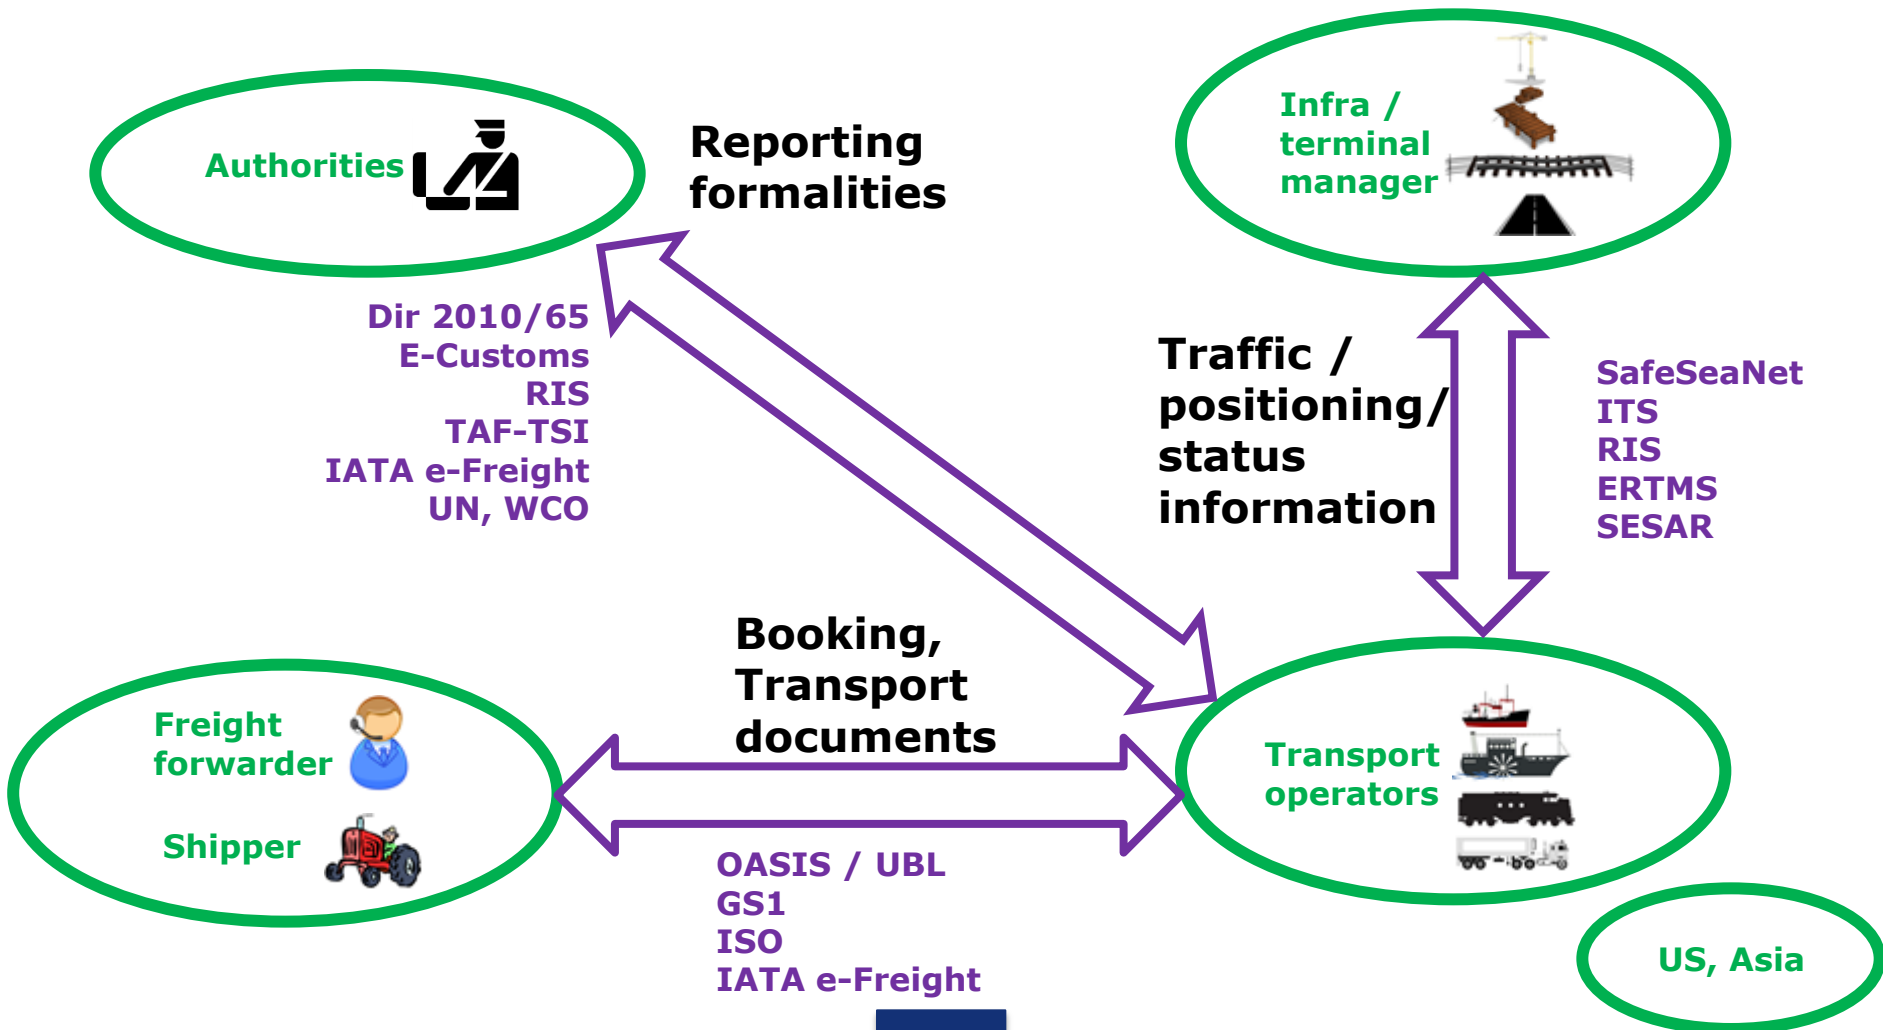

Fleur BREUILLIN, European Commission / DG MOVE

Context

Digital Single Market strategy 2015

- **For:** making the EU's single market fit for the digital age
- **Actions:** Better online access to digital goods and services; An environment where digital networks and services can prosper; Digital as a driver for growth

A number of initiatives for eTransport

Digital Transport and Logistics Forum

Objective :

- Bringing all relevant stakeholders together in a multimodal perspective
- In order to support freight transport/logistics digitalisation with analyses and proposals
 - 1/ Where is common EU action needed ?
 - 2/ What recommendations ?
 - 3/ Implementation, e.g. exchange of best practices

Forum organisation

- Established on 9 April 2015 as a Commission expert group (Decision C(2015)2259)
- Members:
 - industry - call for applications
 - MS authorities - nomination by MS
 - Involvement of other DGs
- 3 years duration
- Structure:
 - Plenary – 2 meetings per year
 - Subgroups – around 3 meetings per year addressing specific topics
- First plenaries – 1/2 July 2015, 29 October 2015, 16 March 2016

2 subgroups

- Electronic transport documents
- Optimisation of cargo flows along transport corridors

Subgroup 1 – electronic transport documents

- Team 1 – acceptance of e-transport documents by Member States authorities
 - survey on-going
- Team 2 - assess scope for multimodal e-transport documents
 - mapping processes and messages for waybills in each transport modes and looking for similarities
- Team 3 – other e-transport documents
 - exchange of best practices across modes and possible low-hanging fruits – road vehicle registration certificates ?

Subgroup 2 – optimisation of cargo flows along transport corridors

- Scandivanian-Mediterranean corridor
- Identify business cases where better exchange of data across different IT systems (e.g. traffic management / reporting systems / booking systems) could enable an optimised use of transport infrastructures
- Identify bottlenecks
- Test implementation and identify bottlenecks via pilot projects on TEN-T corridors

... towards "corridor community systems" ?

How to be kept informed ?

- Register of Expert Groups:

Digital Transport

Objectives

Increase efficiency
Decrease costs/admin burden
New market opportunities

Vision

**Connecting better stakeholders –
easier access and use of
information**

Policy tools

Building on existing systems:
- Standards – common language
**- Governance framework, legal
tools**

Concrete changes

From paper to electronic
**No more repeated data entry
into different systems**
**New business opportunities,
real-time optimisation of freight
management by integrating data
from different sources**
