A New Way Forward
for FIATA members

ICAO and FIATA have entered into an agreement to provide training under the new ICAO/FIATA Dangerous Goods by air training programme.

I strongly encourage all our members to seek out both initial and recurrent dangerous goods training under this network of schools and to receive an internationally-recognized ICAO/FIATA certificate.

This represents training for forwarders by forwarders.

Jean-Claude Delen
President, FIATA

CIFFA becomes the first ICAO/FIATA DG by Air Training Center

For more information on becoming a FIATA training provider or to locate a training center
